

## Lubecore Technical Announcement

### **Corrections to 2021 Fittings Manual**

Lubecore received feedback on the 2021 fittings catalogue after its release in early January. Corrections of note are listed below:

- The material call-out for 20.007, 20.068, 20.069, 20.201, 20.214, and 20.218 has been changed from Steel to Nickel Plated Brass
- The thread size for 21.113, 21.114 has been changed from 1/8-28 to 1/4-19 BSPT
