

NEXT GENERATION AUTOMATED LUBRICATION

Hammer-lube

- Extend your Component Life
- Maintenance Intervals are Optimized for your operation
- Less downtime and less service interruptions for manual lubrication; Get more done in the same amount of time.
- Clear reservoir with red follower plate seal for a clear grease level indicator (4 & 6 Kg reservoirs)
- Lubecore™ parts are compatible and can service other lubrication system brands in your fleet.
- Hammer lube is available in 4 and 6 Kg reservoir sizes
- Peace of mind knowing expensive equipment is receiving the attention it requires.

Lubecore Automated Hammer Lubrication Systems enhance your preventative maintenance program and keeps the hydraulic hammer attachment in excellent condition – resulting in safe, reliable and extended hammer performance.

This maintenance tool keeps your equipment working more and longer, **earning you money!**

See reverse for more information on the features of the Lubecore™ Automated Hammer Lubrication System with Low Level Shutdown & Adjustable Grease Delivery

LUBECORE™ ALS FOR HYDRAULIC HAMMERS

Lubecore™ introduces the Automated Hammer Lubrication System with Low Level Shutdown & Adjustable Grease Delivery to deliver a *quality* and *competitive* solution to deliver optimum return on investment. Adjustable grease output protects equipment of various sizes, while large grease capacity reservoirs extends time between lubricant refills.

KEY FEATURES

The Lubecore™ Automated Hammer Lubrication System features

- 12 or 24 VDC
- 4 or 6 kg (8.8 - 13 lbs) reservoirs for extended operation between refills
- Low level hammer shutdown to prevent hammer operation without lubrication. The control box cuts power to hammer when the low level switch in the pump is triggered.
- Red light to confirm to the operator that low grease level is reached and a refill is required.

The lubrication system:

- Automatically greases the hammer
- Does so only when the hammer is in operation
- Has a low grease level warning light
- Turns power to hammer off while warning light is lit
- Hammer will not work until grease is added to reservoir
- Has a mechanically adjustable grease output. (3 or 6 cc per minute)

Hammer lube compact control box.
