

Why Lubecore? Pneumatic Single Line 210 Out-Spec Guide

Fact	Benefit	Lubecore Single Line 210	Interlube XGS	Graco Grease Jockey	Lincoln Quickclub	GV EP-0
Positive Inlet Pressure Top Spring	* Automatic self-purging/bleeding if pump runs empty * Allows for use of heavier grease and longer systems at lower temperatures	✔	✘	✘	✘	✘
Brass Super Injectors	* Automatic self-purging/bleeding injectors * 30 bar/450 PSI reloading and compatible with EP2 grease in approved design / environment * Brass material means no corrosion of metering valves * Lowest maintenance cost and ease of identification	✔	✘	✘	✘	✘
Makrolon® Reservoir	* Breakproof - no maintenance * Remains clear for life	✔	✘	✘	✘	✘
Corrosion Resistant Mounting System	* No replacing pumps * Low maintenance * No galvanic corrosion of pump body	✔	✘	✘	✔	✔
Stainless Steel Follower Plate with Leak Proof Red Silicon Seal	* Clear grease level indication * No grease funnelling or corrosion * Protects grease from moisture & dirt	✔	✘	✘	✘	✘
Automatic Low Level Shut-Off Option	* Pump doesn't run empty * Never bleed the system * Save time and money	✔	✘	✘	✘	✘
Pressurized Housing Between Cycles	* Positive pressure inhibits the entrance of foreign material	✔	✘	✘	✘	✘
Casted Hard Anodized Aluminum Pump Housing	* No deformation at high temperature * No corrosion of pump housing	✔	✘	✘	✘	✘
Optional Heavy Duty Inline Filter	* Prevents system clogging * Will stop an air operated fill gun	✔	✘	✘	✘	✘
Adjustable Run and Pause Cycles – Per Minute	* Optimize grease consumption * Precision lubrication saves components	✔	✘	✘	✘	✘
Computer Interfaced Timer Programming	* Prevents unauthorized tampering with timer settings	✔	✘	✘	✘	✘
Real Time Electronic Performance Report	* Date and time documented performance reports * Holds mechanics accountable	✔	✘	✘	✘	✘
Operator Communication Light / Test “Smart Switch”	* Confirmation of complete cycles * Easy in dash test switch * Save both time and money	✔	✘	✘	✘	✘
LED Indicator Light at Deutsch® Connector	* Light will glow if there is power to the solenoid * Reduces system inspection time	✔	✘	✘	✘	✘
Guaranteed Residual Program	* Guaranteed residual value of greasing system * Pump is built to outlast equipment * Recycle by reinstalling on next unit * Reduced environmental impact	✔	✘	✘	✘	✘
Heavy Duty Deutsch® Electrical Connections	* Wire connections protected from environment - road salt & brine * Reduced maintenance	✔	✘	✘	✘	✘
Korilla Line Option	* Extreme duty flex hose * No broken line maintenance required guaranteed	✔	✘	✘	✘	✘
