

Lubecore Technical Announcement

1 Front Mount Timer

Lubecore International announces that the **54.419 front mount timer kit** for trailers will replace the **54.213** kit, MKII Progressive TT - 2 Pin ABS/MK/FK/LL which has been discontinued. This adds flexibility to the product and simplifies installation. This new front mount timer kit is fully potted making it moisture resistant. It also features Lubecore’s standard solenoid and is equally suited for both trucks and trailers.

2 Benefits

- **Standardization**
- **Ease of Installation**
- **Built in Pressure Gauge**
- **Compatibility with competitor pumps**
- **Simplified harness**
